ADVentura - The Explorer

The first line created to begin the journey between ADV & McKay. Two explorers set out to see the world and share flavors, culture, and experience rolled into one perfect series of moments. Immediately after lighting up ADVentura The Explorer, the Mexican wrapper will delight the aficionado with its dark chocolate flavor. Then the combination of the wrapper and the Dominican filler pair together to expose a spicy, nutty, and leathery aroma, that is finally topped off with a layer of wooden sweetness from the Ecuadorian filler.

ADVentura - The Navigator

The second line to set sail with ADV & McKay. ADVentura The Navigator is the most complex of all ADV blends. Tobaccos from five different origins are blended to offer a bouquet of mocha and roasted nut. As all the elements combine throughout the smoke, leathery spice, and hints of toffee and caramel combine to linger and delight the palette.

Navigate through your senses!

ADVentura - The Conqueror

The third line to gain ADV and McKay momentum in their travels. ADVentura The Conqueror, introduces dark chocolate with a hint of salt. We blended this to tobacco to remain intact as you smoke your way through to maximize flavor profiles. At the halfway point, sweetness, caramel, and sweet wood join in for layers that compliment and excite the palette.

Conquer with balance, character, and flavor that lingers.
